

THE NEW GAY LIBERATION FRONT

WHO WE ARE

The New Gay Liberation Front is a homosexual run organization that advocates for the rights and unique needs for homosexuals. We support promoting biological reality, namely by upholding the importance of biological sex, as sexual orientation is rooted in sex. We advocate to protect single-sex spaces and oppose the push to remove biological sex from the definition of homosexuality.

WHY DO YOU DO WHAT YOU DO?

We believe that the current movement to conflate sex and gender works to weaken the rights of homosexuals and to erase our lived experiences. We maintain that homosexuality is defined as "a person that is sexually attracted to people of their own sex". Major institutions have redefined it to "same-gender attraction", effectively erasing homosexuals and abandoning gay men and lesbians.

WHAT ABOUT TRANS PEOPLE?

We have great empathy for those living with gender dysphoria and have several members with GD ourselves, including detransitioners and desisters. We believe that resources should be built that focus on self acceptance rather than medicalization. We greatly oppose medicalization of gay youth as a means to address GD. We work to advocate for alternatives to support gay youth living with GD.

WHAT DO YOU DO?

We work to promote and protect the rights of homosexuals. We do so by advocating to uphold biological sex, protect single-sex spaces and oppose attempts to redefine homosexuality.
